

AIRBOX™

CLEAN AIR. PURE & SIMPLE.

MESA QUICK START GUIDE

TOOLS YOU WILL NEED:

Phillips-Head
Screwdriver

Scissors

THE FOLLOWING STEPS ARE ALL YOU NEED!

1. Unbox and unwrap AirBox and individual filters.
2. Reinsert filters as they were (refer to filter stack recommendations for various filter stack options.) Honeycomb filters can be switched for your desired appearance. Two colors are included.
3. Plug in your unit in the best space to cleanse the air. (It is mobile and can be moved based on needs.)
4. Simply turn the knob to your desired noise and fan speed level. Note, the unit turns on from Turbo/High to Medium to Low. Turbo is generally used for an immediate quick clean as Medium to Low is for basic air purification.
5. Enjoy Pure Clean Air!

Remember to subscribe to our “Clean Air for Life” program to maintain the best Air Quality possible. See website link below or call us for more information.
